

# LOTO-LOCKS

BLOCK, FLAG, CLARIFY RESPONSIBILITY.

“ ———  
The second safety rule requires: Secure against restarting. In everyday life, improvisation is often necessary.

## COMMON PROBLEMS

- Insulating tape instead of a lock
- No name, no responsibility
- Not every employee installs a lock

## SOLUTION

**Suitable LOTO-Locks** with forced locking and clear labeling – tailored to internal processes (KA or KD).\*  
Also available as a locking system on request.

\* KA (same key) and KD (different keys)

## 3 SIMPLE STEPS FOR GREATER SECURITY

1. Identify energy interfaces
2. Disconnect and seal energy interfaces
3. Secure and label with a lock and tag before switching back on

## RESULT

Clear responsibility, professional safeguarding, traceable approval.

# HLOX-RECOMMENDATIONS FOR LOTO-LOCKS

## VARIANTS

- Non-conductive bracket (38 mm and 76 mm) for electrical distribution.
- Steel bracket for areas subject to high mechanical stress.
- Various housing colors.

## PERSONALIZATION

- Each employee has a personal lock, with their name and telephone number printed on it if desired.
- Each lock and its corresponding key are engraved with a number.
- Colors are used to identify responsibilities or areas.
- Over 40,000 different lock combinations are possible.
- All locks are keyed differently (KD). On request, they can also be keyed alike (KA) or as a locking system.

## INTEGRATION INTO EVERYDAY LIFE

- Disconnect energy interfaces
- Attach lock
- Attach tag with name/date/workplace
- Document release

## YOUR ADVANTAGES WITH HLOX

**Directly with matching LOTO board. Numbered locks and keys, various locking combinations**
