

# SAFETY-BOARD

EVERYTHING SAFELY IN ITS PLACE!

“ ———  
When something happens,  
every second counts.  
In many companies, first aid  
supplies are not stored  
centrally, cabinets are  
blocked, and responsibilities  
are unclear.

## COMMON PROBLEMS

- Material is scattered
- Storage locations are unclear
- Audits criticize lack of visibility and labeling
- Missing materials are not recognized

## SOLUTION

A central safety board brings everything together in one place: first aid, eye wash, bandages, instructions, escape and rescue plan. Clearly marked, easily accessible, and customized.

## 3 SIMPLE STEPS FOR GREATER SECURITY

1. **Determine location** (line of sight, walking routes, emergency exits)
2. **Define contents** (case, eye wash, bandages, instructions/QR code)
3. **Assign responsibilities** (check & refill schedule)

## RESULT

Quick access, less clutter, more security

# HLOX-RECOMMENDATIONS FOR SAFETY-BOARDS

## EQUIPMENT OPTIONS

- First aid kit (DIN 13157/13169 depending on the area)
- Eye wash bottle, plaster dispenser
- Magnetic frame for escape/rescue plan, etc.
- AED/defibrillator holder
- Rescue hook
- Ear protection/glove dispenser
- Hanging files/display boxes for documents
- Size freely selectable

## INTEGRATION INTO EVERYDAY LIFE

- Brief on-site instruction
- Location marking on the floor/on the hall plan
- Combination with LOTO equipment/tags possible

## YOUR ADVANTAGES WITH HLOX

**Robust panels, easy to install.  
Customized layout. Fast delivery.**
